**Papilla** 

Rugae

What's

this?

The roof of your mouth at the front is sensitive and can grip things. It's a little bumpy on that surface which helps.

If you lightly run your tongue on these ridges it is likely to tickle.

Go on- try it!!

#### Platform 3c:

## Tickle The Gums – Card Grab 50/50 Question Sheet

- 1 What type of toothbrush do you use? (manual or electric)
- 2 When you brush, do you scrub backwards and forwards or do you move the brush head in circles?
- 3 When brushing, do you move the toothbrush all over the mouth in any order, or do you start from the same place every time and work around systematically?
- 4 How many sides, of each tooth can we clean with our toothbrush?
- 5 How often, should we change our manual toothbrushes or electric brush heads?
- 6 Do you have a sensitive tongue?...

  Do your teeth feel "furry" before you brush them?

  And "smooth like glass" when you've finished?
- 7 Have you ever used a plaque disclosing tablet?
- 8 Have you ever used a brushing chart to help turn it into a twice daily habit?

#### Platform 3d: Tickle The Gums – Card Grab 50/50 Quiz **Answer Sheet 1**

#### Which is best? **Manual or ETB?**

It doesn't matter which...It's what you do with it that is important.

It's possible to do a rubbish job with an electric or a brilliant job with a manual.

It can be easier to do a good job with an electric toothbrush as it does a lot of the hard work for you.

This will help to prevent damage to the gums and make the bristles reach further.

Bacteria love to hide along the gum-line so make sure to tickle the gums as well as clean the teeth surfaces.

Circular motion angled 45° to Tickle the Gums

It's easy to lose concentration and start day dreaming while we clean our teeth, but if you start in the same place every day and move systematically you won't get lost or miss anywhere.

moving systematically

Start in the same place and

How many sides of the teeth can we clean with our toothbrush?

> 3 = Outside Inside **Biting surface**

#### Platform 3e: Tickle The Gums – Card Grab 50/50 Quiz **Answer Sheet 2**

How often should we change our manual toothbrushes or **Electric brush heads?** 

#### **Every 3 months**

On average but look to see if bristles are worn and no longer straight (splayed)

**Every 3 months** Jan, Feb, March, April, May, June, July, Aug, Sept, Oct, Nov, Dec

#### Do you have a sensitive tongue?

Do your teeth feel furry before you brush them?

#### Yes No

Some people can tell the difference by running their tongue along the teeth. When you've finished brushing do they feel smooth like glass? Do the 50/50 test – brush half of your teeth e.g. the left side – then run your tongue around your teeth and see if you can feel the difference.

Whether you can feel the difference with your tongue the most scientific way to check is to use a plaque disclosing tablet. Have you ever used a plaque disclosing tablet?

#### Yes No

You will get some instructions on how to use them (from the school office to your grown up's email)

#### Have you ever used a brushing chart to help build a twice daily habit?

You will be getting one in your goody bag to take home today.

#### Yes No

Give yourself an extra tick each time if you remember to

"Spit, Don't Rinse!"

### Platform 3f:

#### Tickle The Gums - KS1 & KS2

(Including reception)

#### **Brilliant Brushing Chart**

Tick the boxes each time you clean your teeth for 2 minutes.

Remember, spit, don't rinse so the fluoride can work for longer to protect your teeth!

- Brush twice a day for 2 minutes with fluoride toothpaste.
- **Spit, don't rinse** after brushing.
- Keep sugary foods and drinks to mealtimes.
- Visit your dental practice regularly.
